

Bachner, Florian

Gesundheit Österreich GmbH

Florian Bachner is a Senior Health Economist at [Gesundheit Österreich GmbH](#) (the Austrian National Public Health Institute), where he has worked since 2009. Since 2016, he has headed the Department of Health Economics and Health System Analysis. In addition to his primary role, he lectures at several universities.

His research focuses, reflected in numerous national and international health economics projects, primarily on health financing and health expenditure (including price comparisons, forecasting, age-specific expenditure profiles, and expenditure monitoring), performance and outcome measurement in healthcare, and comparative health system analysis. Between 2020 and 2023, the scientific study and forecasting of COVID-19 constituted another major area of his work. Among other roles, Florian Bachner is a member of the European Expert Group on Health Systems Performance Assessment, the European Health Information Network (WHO), and the Health Systems and Policy Monitor network of the European Observatory on Health Systems and Policies.
