Jokelainen, Pikka
One Health EJP TOXOSOURCES

Dr. Pikka Jokelainen is based in Copenhagen, Denmark, at Statens Serum Institut - a public health institute that also has veterinary infectious disease preparedness functions. Her research focus areas are One Health, endemic and emerging zoonoses, infectious disease preparedness, and science-to-policy interfaces. She is the Leader of TOXOSOURCES Consortium, a member of the Project Management Team of One Health European Joint Programme, the President of World Federation of Parasitologists, the President of Scandinavian-Baltic Society for Parasitology, and Chair of Finnish Epidemiology Society. She has published over 90 scientific articles. She is Editor of Parasite Epidemiology and Control, Associate Editor of Epidemiology and Infection, and Section Editor of PLOS Neglected Tropical Diseases.
