

Jovanovic, Nikolina

Queen Mary University of London

Dr. Nikolina Jovanović is an Associate Professor in Perinatal Psychiatry at Queen Mary University of London, United Kingdom. Her work focuses on improving perinatal mental health care, developing and implementing effective psychosocial interventions, enhancing engagement with service users, and exploring the interplay between architecture and mental health. Over the past decade, she has led several projects aimed at enhancing psychiatric care in Eastern Europe. Her research has received funding from the European Union, the National Institute of Health and Care Research, and UNICEF. Dr. Jovanović is dedicated to advancing the position and education of psychiatrists and mental health professionals across Europe and globally. Her active involvement within the European Psychiatric Association has included diverse roles, notably the chairperson of the Early Career Psychiatrists Committee, a board member, and a member of the Committee of Education.
