

Kalra, Dipak

European Institute for Innovation through Health Data

Dipak Kalra, PhD, FRCGP, FBCS, British, is President of The European Institute for Innovation through Health Data (i~HD).

He plays a leading international role in research and development of Electronic Health Records, including the requirements and models to ensure the robust long-term preservation of clinical meaning and protection of privacy. He leads the development of ISO standards on EHR interoperability, personal health records, EHR requirements, and has contributed to several EHR security and confidentiality standards.

Dipak has led multiple European projects in these areas, including Horizon 2020 and the IMI programme alongside pharma companies, hospitals and ICT companies. He recently co-led a €16m project on the re-use of EHR information for clinical research, EHR4CR, alongside ten global pharma. He is a partner in another IMI project, EMIF, on the development of a European clinical research platform federating multiple population health and cohort studies. Dipak also led an EU Network of Excellence on semantic interoperability, and is a partner in other EU projects on the sustainability of interoperability assets, the transatlantic sharing of patient summaries and quality labelling.

Dipak is Professor of Health Informatics at University College London and Visiting Professor of Health Informatics at the University of Gent.
