Klimanova, Tatiana
FemTech Lab

Tatiana serves as the Director of the FemTech Lab accelerator. She established the accelerator program for early-stage startups in women's health from the ground up. Since its inception, FemTech Lab has facilitated the acceleration of 7 cohorts of startups, comprising more than 70 ventures. The ecosystem encompasses over 250 mentors, all esteemed industry professionals, as well as over 400 VC firms and Angel Investors, along with corporate GTM partners. Prior to FemTech Lab, Tatiana led product development & commercialisation of global tech products.
