Kolpatzik, Kai
AOK-Bundesverband

Dr med **Kai Kolpatzik** is a medical physician and public health expert, and worked as a medical practitioner in surgery at hospitals in Freiburg and Lake Constance. He was based at the University of Bielefeld – where he completed a Master of Public Health and European Master of Public Health – and at the World Health Organization (WHO) in Geneva before taking up his post at the AOK Federal Association in 2004. Since 2009 he has been heading up the Department of Prevention in the AOK Federal Association. He is initiator of the first nationwide representative study of health literacy in Germany. His focus of work is on health promotion and prevention, health literacy, health communication, patient safety and digital health
