Löffelhardt, Peter
Global MPN Scientific Foundation

Peter Löffelhardt has been active in the Advocacy field for over 15 years. Pete is a Polycythemia Vera patient, diagnosed 30 years ago. Ten years ago, Peter founded MPN Advocacy Network, an umbrella organization for national patient advocacy groups. Today over 40 national patient advocacy groups from all over the world are part of the MPN Advocacy Network. Peter founded a scientific foundation in Switzerland, Stiftung MPN Forschung Schweiz, together with seven of the most important MPN specialists in Switzerland, lead by Prof. Radek Skoda. The Foundation started a registry of analysticial data for MPN patients in Switzerland. Three years ago Peter started his Fundación International MPN Research Foundatiion, commercially known as Global MPN Scientific Foundation, with the goal to bring physicians, patients and pharmas together on one platform in order to discuss mutual problems and their solutions.
