

Maier, Claudia

Technische Universität Berlin / European Observatory on Health Systems and Policies

Dr. Claudia Bettina Maier, Dr. P.H., MSc (Public Health), Dipl.-Nursing,

is a postdoctoral researcher at Technische Universität Berlin and a 2014–15 Harkness / B. Braun Fellow in Health Care Policy and Practice at University of Pennsylvania, Center for Health Outcomes and Policy Research, United States. Prior to this, she worked at the Joint United Nations Programme on HIV/AIDS (UNAIDS) on health workforce skill-mix and task-shifting, sustainable financing, country investment cases, and integration of the HIV response in national health systems. From 2008 to 2011, Maier was a technical officer at the European Observatory on Health Systems and Policies, where she worked on the E.U.-funded PROMeTHEUS research project, a cross-country analysis of health professional mobility in the European region, and organized policy dialogues on health policy reforms across the region. She has also previously worked with the European Commission (2007-08), a state-level Institute of Public Health in Germany (Iögd) (2006-07), the University of Bielefeld, Germany, and with the World Health Organization, Geneva. Her research interests include health workforce skill-mix and performance, health professional mobility, task-shifting, integration of HIV/AIDS programs into health systems, and health systems governance. Maier has published in journals including BMI Open, Bulletin of the World Health Organization, Health Policy, BMJ Sexually Transmitted Infections (STI) and BMC Public Health. She is associate editor of the journal [Human Resources for Health](#) and has authored various book chapters on the health workforce.
