Marin, Laura
Joint Programming Initiative on Antimicrobial Resistance

Laura Marin heads the Secretariat of the Joint Programming Initiative on Antimicrobial Resistance (JPIAMR) initiative hosted by the Swedish Research Council. She also leads, as Coordinator, the preparations of the future One Health AMR Partnership. Previously she was responsible for Science Policy and Member Relations at the European Science Foundation. Earlier on she was team leader of the European Science Open Forum in 2008 and Director of Operations at the Catalan Foundation for Research and Innovation. She has several years of experience in Brussels and Germany managing research and innovation projects and facilitating numerous fora on science policy.
