Neumann, Marc
Basque Centre for Climate Change

Marc Neumann is Ikerbasque Research Professor at the Basque Centre for Climate Change (BC3) in Bilbao (Spain), where he coordinates the research line on Adaptation. He holds a doctorate in Environmental Engineering from ETH Zurich. Previous to joining BC3 he was Postdoctoral Researcher at Eawag, Switzerland and at the Canada Research Chair on Water Quality Modelling at Université Laval, Québec, Canada. He has extensive research experience on the mathematical modelling of water systems, with a focus on the treatment of uncertainty. Current research focuses on the themes of knowledge integration and complexity within climate change adaptation and mitigation.
