Simidchiev, Alexander
Bulgaria

A clinician working in respiratory, with extensive clinical, industry and political experience in academic, hospital, outpatient, commercial, medical affairs and parliamentary roles. Technological innovation within healthcare and creative disruption are his passions, along with scientific communication/dissemination of the aforementioned topics.

Recently, he co-founded and became Chairman of the Executive Council of a novel Bulgarian non-profit dedicated to improving health through social activities focused at reducing air pollution. During the pandemic he was elected to the Medical Advisory Board for COVID19 in Bulgaria. Elected as a member of Parliament in the 45-th National assembly where he headed the Parliamentary healthcare committee. In the space of the next year he participated in two more consecutive parliaments. Currently running for office in the 48-th National assembly.
