Todd, Eloise
Resilience Action Network International

Eloise Todd is the Executive Director and Founder of rani (Resilience Action Network International), which coordinates advocacy to build societal resilience to shifts, change, and crisis. An advocacy, policy, campaigns, and strategy specialist, Eloise has over 25 years' experience working to change policies, legislation and budgets to improve lives. Primarily, she has worked in international development and global health, including as a political adviser within the EU institutions and as Global Policy Director of the ONE Campaign. Eloise campaigned against the U.K.'s Brexit deal, building one of the largest pro-European organisations into a national campaign force. Eloise co-founded Pandemic Action Network (PAN) with three colleagues in April 2020 and took on the Executive Director role in August 2022 and led the evolution to become rani in November 2025. In 2023, Eloise helped launch Resilience Action Network Africa (RANA).
