van Kessel, Robin
London School of Economics

Dr Robin van Kessel is a Research Fellow at LSE Health, where he co-founded and currently acts as the Research Director of the AI and Digital Lab. His research focuses on the regulation, implementation, evaluation, and financing of digital health and AI technologies within health systems. He holds a PhD in Comparative Health Policy from Maastricht University and was awarded the Hoffmann Fellowship on the Future for Health Systems between LSE Health and the World Economic Forum (2024-2026). His work is published in leading medical and health policy journals such as npj Digital Medicine, The Lancet Digital Health, The Lancet Regional Health - Europe, the Bulletin of the World Health Organization, and The BMJ. He is listed in the 2025 Stanford–Elsevier Top 2% Scientists List in medical informatics, underscoring the impact of his research in digital health and AI.
