

Vandam, Liesbeth
EMCDDA

Liesbeth Vandam holds a PhD in Criminology, focusing on drug use among released prisoners. From 2006 until 2010 she worked as a researcher at the Institute for International Research on Criminal Policy (Belgium). She joined the EMCDDA in 2011 as scientific analyst, where she was responsible for the coordination of the scientific work programmes. Since 2017 she has been Head of the Support to policy sector within the EMCDDA's Public health Unit. Liesbeth has (co-)authored and coordinated several publications on the drug situation, including on drug related crime, drug policy (evaluation), drug use among prisoners, drugs and driving, wastewater-based drug epidemiology, cannabis policies and the medical use of cannabis.
