The European Union Health Union
2024 and beyond

The European Union Health initiative is sponsored by The Bosch Foundation

Target health workforce, AMR, mental health, cancer, CVD, pharma legislation, disease prevention.

Align markets, legal frameworks, and policies.

Implement EHDS, HTA, AI regulations, and utilise data beyond health.

Invest in and deliver the green transition.

Mobilise existing EU tools and public budgets.

Long-term vision for health as a cross-cutting priority. Health is not a side effect of the internal market.

Transform the Health Union from a set of initiatives into a strategic mission.
