Romania experience
- 19 mil inhabitants
- 50% rural
- 250 mil illiterates
- 10-15% opportunistic screening
- >40% diagnosis too late
Romania
Situation analysis
Cancer prevention

• Cervical cancer highest mortality

• Breast cancer

• Colorectal cancer

• National program inefficient
• No palliation services
• No ambulatory services
• No vaccination

• No screening/prevention program
• No ambulatory services
• Tx: 4 new molecules
• Tx: Radiotherapy

• No screening/prevention program
• No ambulatory services
• Tx: new molecules
• Tx: Radiotherapy
Burden of NC disease
